Re: [ Probation Status ]

Dear Honorable: Judge Stephen J. Murphy III,

This is a petition concerning my past probationary status; thus, even with fulfilling the past-term of probation within compliance of all appointments, urinary-test, and other obligations by the Court — I was only found in violation of past-probationary period due to the retirement of past probation officer (Ms. Bernadette Moore), one month prior to the ending term of the probation (2016). The current probation officer was to release me from the conditional-release, which for unknown reasons, the case-file was unintentionally misplaced amidst the flurry of concluding paperwork. Actually, the uncontroverted fact of this petition is to motion this Honorable Court to expunge this past-probation-violation based upon the closing of an

old case-file, which has created a wall, and further marginalized myself from receiving an individualized determination by the Bureau of Prison in the assessment of particular re-entry factors — equally important, are the factors of medical-issues, housing, and the management of inmates with disabilities.

Additionally, "America is a Respected Nation of Second Chances," which promotes rehabilitation/reintegration of individuals whom have paid their debts to society, saving tax-payers dollars by lowering the direct and collateral-cost of recidivism/victimization. Besides, I am "70-years" of age with medically-documented impairments that substantially limits my individual activities of daily living — causing addition distress and anxiety disorders.

Therefore, I humbly pray this Honorable Court grants the following petition in the following;

(A). Expunge case of past-probation violation.

Thank you very much for your time and efforts in this matter..

Sincerely,

Willie Bellamy
